Stewart Family,

This week a team from Stewart Elementary (Ms. Crockett, Mrs. Galloway, Mrs. Vadney and Ms. Berglan) had the opportunity to attend RULER Training in Waterford, MI! This team will attend two more trainings this school year! The team will also work with the Stewart staff and students to integrate RULER into the Stewart Family.

For more information about RULER, please refer to the center section. We are so excited to integrate even more Social-Emotional Learning at Stewart Elementary.

RULER Training

RULER is an evidence-based approach for integrating social and emotional learning into schools, developed at the Yale Center for Emotional Intelligence. RULER applies "hard science" to the teaching of what have historically been called "soft skills." RULER teaches the skills of emotional intelligence — those associated with recognizing, understanding, labeling, expressing, and regulating emotion. Decades of research show that these skills are essential to effective teaching and learning, sound decision making, physical and mental health, and success in school and beyond.
